Project Quotation

WEB SYSTEM FOR TAXI SERVICE

Hello, it's a pleasure to greet you.

I'm pleased to present this proposal for the development of your website. My work involves designing and building a complete, functional project tailored to your specific needs. I focus on creating websites with a clear structure, visually appealing, and easy to understand, so you can use them confidently or continue their implementation with the person of your choice. All development is carried out with attention to detail and best practices, ensuring the final result is clean, professional, and fully deliverable.

Once the project is completed, you will receive all the organized files ready to be used. If you have any additional questions or would like to adjust any aspect, I'll be happy to assist you and work together to ensure the site meets your expectations.

Nota:

The quotation is based on the requirements outlined for the taxi service system.

Detailed breakdown

DOCUMENTATION & MANUAL

Incluye:

- Basic user guide in PDF format (admin and user)
- Technical documentation of code and structure
- Deployment tips

Total: ₡20,000

Important Notes

- A 50% deposit is required to approve and begin the project. The remaining 50% is due upon delivery.
- The development only includes the listed features. Any additional requests after the start of the project may incur extra costs and extend delivery time.
- The project includes up to 3 rounds of revision. Additional changes beyond this limit may result in extra charges.
- Hosting, domain, and post-delivery support are not included in this quotation.
- The payment gateway will be set up in test mode unless live credentials are provided during development.
